# Healthy & Connected

## Native & Edible Gardens

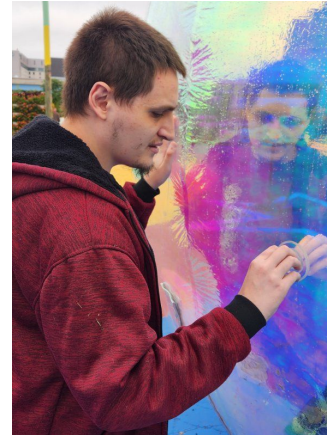

Initiatives were put in place to promote dedication and care for the environment, the community, and each other. HGA's first native and edible gardens survived and thrived, yielding vegetables, fruit, herbs, and flowers and building engagement and connections.

The Healthy and Connected Garden Projects at Black Creek Cove and Virginia's house were made possible by a grant from the Environmental Endowment Fund of the Community Foundation for Muskegon County.

# 2022/2023 Financial Overview
